

40, 50, 63 and 66, are directed to speech processing or speech recognition. While these claims specifically recite voice recognition units, it should be noted that applicants consider that voice recognition includes speech recognition or processing in all its forms. Furthermore, applicants submit that claims 45 and 65 do not recite and are not limited to speech processing.

Applicants look forward to receiving the first Office Action on the merits. Should the examiner have any questions, he is cordially invited to call applicants' attorney at the below listed number.

Respectfully submitted,

By:

  
Roger A. Heppermann
